Important Instructions

1. Project Team should consist of 3 members.
2. Each team should choose one problem statement from the given list.
3. **Once the one problem statement is chosen by one team, that problem statement won't be visible to another team. So, the problem statement selection is 1st come 1st basis.**
4. Students must strictly follow the review schedule and submit the required deliverables on time.
5. Each review will be evaluated based on project progress, technical content, documentation, and presentation.
6. Research paper preparation should progress alongside project development.
7. Project reports should be prepared as per the prescribed departmental format.
8. Research papers should be submitted in only reputed scopus indexed conferences/ieee conferences/scopus indexed journals.

All students are advised to plan their work accordingly and ensure timely completion of project activities.
